7th European Brokerage Event

# micro & nanotechnologies

www.micro-nano-event.eu

**In the framework of MICRONORA**
**28th Sept. - 1st Oct. 2010**
**Besançon - France**

Organized by Enterprise Europe Network, this brokerage event is targeted at companies, technical institutions and research laboratories offering innovative technologies and know-how or looking for technological solutions.

## The 6th edition in a nutshell

- 11 nationalities represented by 135 participants
- 360 highly-targeted meetings (246 transnational)
- 85 % companies, 15 % research laboratories

## Benefits for companies

Technological partnerships (license, manufacturing agreements, commercial agreements with technical assistance, joint venture), European R&D projects, finding partners to build a solid base from which to approach new markets, making international contacts to promote innovative technologies and know-how or finding ideas or technologies as innovation boosters.
**Sharing to innovate, develop your company and reach new markets.**

## Registration fees

150 € VAT not included
50 % reduction for Micronora exhibitors.

## Meetings leading to real partnerships

*" Enterprise Europe Network has helped us to find technological partners in Europe. We not only have found partners we were looking for but our participation in the brokerage event in 2008 enabled us to promote our know-how and activities on the international level. "*

***Najia TAMDA, manager, IMACISIO, France***

*" Brokerage events are the best way to meet targeted technological partners during trade-fairs. "*

***Max MONTI, R&D manager, HAUTE ECOLE - ARC, Switzerland***

**Organisers**
Enterprise Europe Network (ARIST Franche-Comté)

**In partnership with**
OSEO Franche-Comté, Pôle des Microtechniques (microtechnology cluster), FEMTO-ST (micro & nanotechnologies research institute), Pierre Vernier Institute (technology transfer center).
